Won-Door Movable Firewall Size Increase

We are pleased to inform you that we are now able to provide the Won-Door Movable Firewall to sizes up to and including 9.144m x 3.740m. Movable Firewalls to these sizes have been approved by UL for fabrication and will be provided with a UL label.

For installations outside the domestic US, it is advisable that the local fire engineer in the jurisdiction where the project is located, review and approve the use of the increased size of the Movable Firewall for that application.

Regards,
